CAMELLIA JAPONICAS

THE ARISTOCRAT OF THE SOUTHERN GARDENS

Delightful winter-flowering evergreen that is increasing in popularity each year. Ideal cut flower for florists.

We specialize in growing Camellias, and after many years of propagating and growing them we pride ourselves on the vigorous, healthy plants we have to offer this season.

It is with satisfaction that we can offer you this superb collection.

As most people understand that Camellia Names have not been stanardized, it is practically impossible to know exactly that some of the names are correct, and for this reason we are still giving the best description of the blooms that we can write when plants are in bloom.

OUR CLASS A-1 CAMELLIAS

These are the usual best standard varieties. If sizes are not mentioned, can furnish any size listed in our prices of Class A-1.

BOLEN No. 4

Deep shell pink, medium size blooms, some larger than Pink Perfection, blooms mid-season to late.

BOLEN'S No. 4

CHANDLERII ELEGANS

One of the finest and largest of the peony-type Camellias. Cherry-red, variegated with white and rose.

COUNTESS POLYANNA MAGII

Very large, double white, with an occasional pink spot, blooms from mid-season until late. Sizes 6-12 inches and 3-4 feet.

DUCHESS DE CASSI

Very double peony-type, white variegated with orchid and pink, very attractive and unusual variety.

DUCHESS de ROHAN

Fluffy, peony-type, same shade of pink as the Mrs. Chas. Bell Rose. Blooms mid-season until late.

ELLEN McKINSEY

Flowers double, fluffy, peony-type, pink striped and spotted with white, has a very few stamens intermixed with petals. Begins blooming very early and continues throughout the season.

ENRICO BETTONI

Very large clear light pink. Varies in form from semi-double to peony-form on same bush. Sizes 6-24 inches and 4-5 feet.

GLOIRE de NANTES (Leana Superba)

Very large, semi-double cerise, has long yellow stamens, center petals often twisted. Beautiful dark green foliage, that makes the plant unusually attractive as an evergreen. The blooms stand out above the foliage in a way that we have not seen in other varieties.

MADAM
STREKALOFF

GUNNELLI (Monarch)

Very large, heavy peony-type deep pink, sometimes has some white spots. Has good foliage, dwarf spreading grower, as this variety is more compact and does not grow tall as fast as other varieties. The price of specimen plants will be one grade higher than other varieties. For example the price of 18-24 inches will be listed at price of 24-30 inches. This is one of the best.

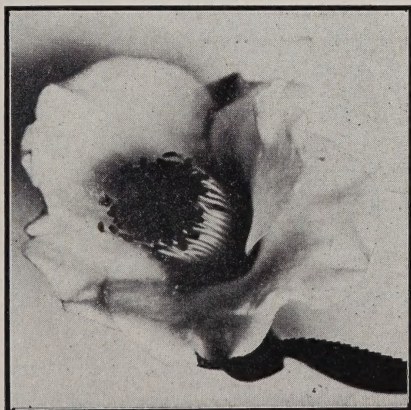

HERME

Large, loose peony-type variegated white and pink. A beautiful flower, but the plant does not grow as compact in the nursery as many other varieties. Sizes 36-42 inches and 42-48 inches and 4-5 feet.

JEANERETTE PINK

Large, semi-double to peony-type solid pink. (Sizes up to 36 inches.)

MISS DORA
McCARTER

MADAM STREKALOFF (Belle Romana)

Beautiful large double soft rose with very small stripes of crimson. Has about 60 outer petals and 24 to 30 smaller petals in center. (Sizes up to 36 inches.)

MISS DORA McCARTER

Large single white flowers with yellow stamens. This is the best single white Camellia we have seen. We named this variety in honor of the one in whose garden it originated. (Sizes 18-36 inches and 5-6 feet).

No. 101

NATCHEZ

Large red, has larger outer petals with smaller petals in center, has white spots on some of the blooms. (Sizes 6-8 inches and up to 36 inches).

No. 101 (Tri-Color S. Folki)

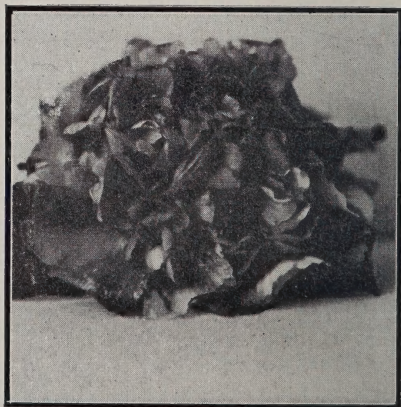

Large semi-double deep cherry-red, mottled and marbled with white, has prominent stamens in a central compact ring. The type of bloom is similar to Donklaeri, but not quite so large, and the foliage is different. Good grower and profuse bloomer.

OTOME

Double shell pink, larger than Pink Perfection and shows veins of slightly deeper pink. (Sizes 6-8 inches up to 18 inches).

PINK PERFECTION

Very double, medium size flowers of delicate shell-pink. One of the first to begin blooming during the Camellia season.

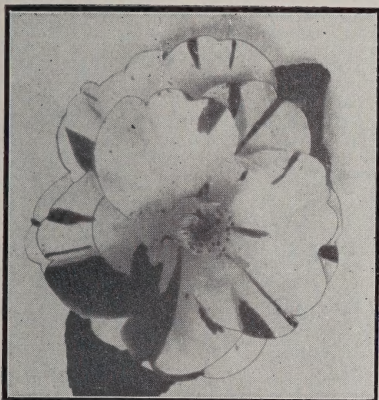

**PROFESSOR
C. S. SARGENT**

PROFESSOR C. S. SARGENT

Beautiful, very double, peony-formed flowers, rich deep crimson; begins blooming early in the season, has about 20 outer petals and a tuft of 240 or more smaller petals in center.

BOLEN'S LATE TRI-COLOR

Semi-double flowers, usually pure white with red or pink stripes or spots, with occasionally a solid red or white bloom on same bush, blooms late.

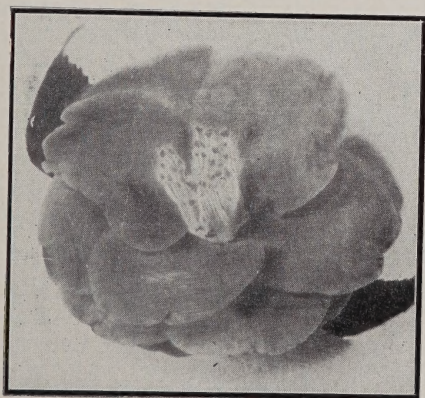

BOLEN'S LATE
TRI-COLOR

CLASS A CAMELLIAS

This is good, standard varieties. Some are as good as Class A-1, but are more plentiful and can be sold cheaper.

MRS. ABBEY WILDER

Peony-type white flowers with occasional stripes or spots of pink. (Sizes 6-18 inches).

DUCHESS de ORLEANS

Very double white, good grower, free bloomer from early January into March.

DUKE de ORLEANS

Very large peony-formed flowers, creamy-white, flaked and dotted with rose, one of the earliest to begin blooming and continues to bloom throughout the season. Has Azalea-like odor.

JARVIS RED

Semi-double, dark red with yellow stamens, intermixed with petals; narrow, dark green foliage. (Sizes up to 36 inches).

NOBILISSIMA

Full double peony-type white, petals intermixed with yellow stamens, begins blooming early in the season.

T. K. VARIEGATED

Semi-double, light pink, with darker pink stripes, cluster of stamens in center. (Sizes 6 inches to 48 inches).

No. 3 RARE VARIETIES

BRILLIANT

Very double, large bright red. Blooms early mid-season. One of the best double red Camellias, good compact grower. (6-8 inch up to 30 inches).

No. 106

Large, semi-double to peony-type flowers, beautiful soft salmon-pink. (6-8 inches and up to 36 inches).

VARIABILIS

Semi-double pink and white. (12-18 inches and 18-24 inches).

IMPERATOR

The brilliant, Christmas-red, peony-type blossoms, which are more graceful than some of the other peony-types, makes this a most beautiful variety. (12-18 inches up to 36 inches).

MAIDEN'S BLUSH

Flesh pink with small veins of deeper pink. Very double recurved petals. Medium size flower, dark green foliage. (6-8 inches and 12-18 inches).

MATHOTIANA ROSEA

Pink sport of Mathotiana Alba. Very large, deep shell-pink. Good bloomer, blooms late in the season. Sizes 6-8 inch and 8-10 inch).

DAINTY

This variety originated from a seedling. Flower is single, bell-shaped, soft pink with yellow stamens, Size 6-8 inch.

BOLEN FLORIST and CAMELLIA GARDENS

LUCEDALE, MISSISSIPPI

We thank our customers of the past for their business and nice letters expressing their appreciation of our plants, service, etc., and we will appreciate the business of all new customers. Our aim is to give the best plants and service it is possible to give.

A Certificate of Inspection will accompany each shipment.

Our terms are cash, or one-fourth cash and balance C. O. D. 3% discount and packing free when cash accompanies order. Where plants are selected from the nursery, and just the heavy plants selected, they will take a higher price rate than the regular nursery row run of plants.

Attractive discounts on truck or car-load lots. We invite you to visit our nursery and make your own selection.

In lining out plants, 5 each of one variety takes the ten rate; 10 each of one variety takes the 100 rate. In specimen plants we can furnish one plant of each variety up to ten plants at the ten rate.
